

FEED OPTIONS FOR DRESSAGE RIDERS

Why feed Pryde's EasiFeed?

- Top quality feeds using top quality ingredients only
- The complete feeds include all vitamins and minerals when fed at rec. rates
- Top quality protein for topline, recovery, muscle, hooves and coat
- Well digested – extruded and pelleted feeds. No raw grains.
- Great range
- Pryde's provide a lot of sponsorship to and proudly support Dressage in NZ

Let us introduce some of our feeds!

EASIRIDE – Great non-heating maintenance feed. Economically priced so ideal if low on budget. Beats raw grain feeds. Ideal for good doers and horses that don't need a lot of feed or gas in the tank.

EASIRESPONSE – Great value extruded cube feed when needing to put condition on/hold condition, or doing higher competition and shows each weekend. One of Pryde's favourite most cost effective competition feeds.

EASIRESLT – Similar use as Response but in a sweetfeed form. Pryde's No. 1 Feed for fussy horses. Suitable for higher workload and conditioning. Typically non-heating.

EASISPORT – Horse can't have grain or really hot? This is the feed for you. No grain competition feed. Suitable for any prone to laminitis, ulcers etc

150 BALANCER PELLET – Don't need a hard feed because horse is doing great on grass alone? Just want to make sure they get their vits and mins? Try this

Available at selected stores around the country.
