

SITE SAFETY RULES

As guidelines to the adoption of safe working practices, the following are safety rules, which must be followed by Workers, Contractors & Visitors to our site.

- ✓ All visitors must have authorisation to enter any area where public is excluded.
- ✓ Be aware of horses, as they can be unpredictable.
- ✓ Where required or designated, approved safety equipment must be used.
- ✓ All areas must be kept clear and free of hazards.
- ✓ Machinery must not be operated without guards or with damaged guards.
- ✓ Safety devices must not be tampered with.
- ✓ Inspect equipment for safety and hazards before use.
- ✓ Be aware of moving hazards such as vehicles.
- ✓ Keep clear of moving machinery or equipment at all times.
- ✓ Follow recommended procedures for handling hazardous materials.
- ✓ Keep aisles, exits, driveways and fire-extinguisher accesses clear.
- ✓ Before entering any area observe safety signs and rules.
- ✓ Where necessary use all appropriate personal protective equipment.
- ✓ PPE is a must – if provided must be worn
- ✓ Apply appropriate safe lifting practices - manual or with equipment.
- ✓ Intervene all unsafe acts or imminent dangers and report.
- ✓ All accidents, incidents and near misses to be immediately reported.
- ✓ Before starting any new project job, look for and discuss safety issues.
- ✓ Plant and equipment must only be operated by trained and competent persons.
- ✓ All contractors to be aware of overlapping duties.
- ✓ Be fully aware of evacuation and emergency procedures.
- ✓ Maintain an appropriate standard of housekeeping and general hygiene.
- ✓ Vehicles may only be driven by qualified and authorised personnel.

EVERYONE IS LEGALLY RESPONSIBLE FOR THEIR OWN SAFETY AND THE SAFETY OF OTHERS.
